FREE WIRELESS INTERNET ACCESS

If your business requires a VPN, the ability to download large files or highly reliable Internet service, please order Internet service through Specialized Event Services (SES). SES can provide both hard wired and wireless Internet access that can fit your specific needs. Order forms can be found in section 9 Specialized Event Services.

ENKWSA provides FREE wireless Internet access throughout Sands Expo. This service is useful for checking e-mail and standard Web browsing, but is not recommended for use with a virtual private network (VPN) or for large downloads. If you need only to check e-mails and browse the Internet, just bring your computer with wireless capability, and you will be able to connect to the Internet at no charge. Complete logon instructions will be available at the Registration Area.

Although we anticipate that the wireless Internet service will function well, there may be slowdowns during peak usage times, and there may be areas in the hall where the service is not as strong. The free wireless Internet service should not be considered a reliable replacement for a hard wired Internet connection.
